# EMBRACE THE CHAOS

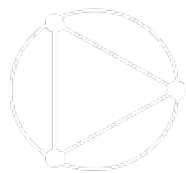

In Synthesis, students develop the world's most valuable skill: solving problems with a team.

Watch to see how it works.

# MOVING CIVILIZATION **FORWARD**

We help kids cultivate skills in collaboration and critical thinking so they're equipped to contribute to the good and advance society for the better.

**In Synthesis, your child will learn to:**

**SOLVE  
PROBLEMS**

Kids learn

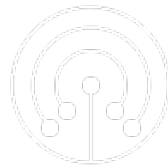

**LEARN  
THROUGH**

**EXPERIENCE**

how to  
navigate  
challenges  
when there  
are no clear  
answers.

## EXPERIENCE

Our real-  
world  
simulations  
are designed  
to ignite  
curiosity and  
spark new  
insights.

## BUILD MEANINGFUL FRIENDSHIPS

Connect with  
like-minded  
peers hungry  
to dive into  
engaging  
problems.

## WHY SYNTHESIS?

# WHAT SCHOOL DOESN'T TEACH

In 2014, Elon Musk asked me to start an experimental school with him at SpaceX.

The goal was to develop students who are enthralled by complexity and solving for the unknown.

Synthesis is the

most innovative learning experience from that school. It is designed to cultivate student voice, strategic thinking, and collaborative problem solving.

**I believe  
Synthesis builds  
these skills like  
no other  
education  
experience.**

Until recently, Synthesis was only available to a handful of SpaceX families. Today, our community is

worldwide and  
growing quickly.  
Excited for you  
to be a part of  
it.

Josh Dahn  
Co-founder,  
Synthesis

## CORE SKILLS

AT SYNTHESIS, WE  
CULTIVATE  
**HUMAN  
INGENUITY.**

By nurturing the qualities  
our students already  
possess, we transform  
their ambition into  
powerful abilities.

VOICE

FLOW

VOICE

The

ability  
to  
communicate  
with,  
listen  
to, and  
influence  
those  
around  
you.

WHAT  
MASTERY  
LOOKS  
LIKE:

Your  
child  
speaks  
and  
listens  
with  
**intention**  
**and**  
**conviction**

—  
contributing  
to  
every  
challenge  
with  
confidence.

# WHAT TO EXPECT

## Reserve your spot.

Apply today to secure your child's place on the Synthesis reservation list. New cohorts open on a monthly basis for kids ages 8 to 14.

## Join your home cohort.

Your child will join a group of 15-18 students for a weekly, one-hour simulation session. Our teachers are real-world professionals: engineers,

neurobiologists, and  
writers.

## See the transformation.

In the first three  
months, your child will  
cultivate skills that will  
stay with them for a  
lifetime. Critical  
thinking. Confidence.  
Empathy. And this is  
only the beginning.

# HEAR FROM OUR PARENTS

**Amanda L**  
@StructuralP

My daughter is in it. She was struggling with her homeschool program. Synthesis showed us who she is, and what she needs and now she's much happier. We are doing alternative schooling for her, we are all relieved seeing her joyful and eager again.

@tedmitew

My son has been part of [@synthesischool](#) for a year and it's very rewarding seeing the school grow from strength to strength.

Definitely a viable model for replacing K-12.

**Nisha Surendra**  
@Surendran

Thanks to [@synthesischool](#), my kids regularly use the phrase "that's just your hypothesis" at the dinner table. It's fun to watch!
